Correction to Size and Density of Fibers in Fibrin and Other Filamentous Networks from Turbidimetry: Beyond a Revisited Carr–Hermans Method, Accounting for Fractality and Porosity

Fabio Ferri,* Gabriele Re Calegari, Matteo Molteni, Barbara Cardinali, Davide Magatti, and Mattia Rocco

Macromolecules 2015, 48 (15), 5423–5432. DOI 10.1021/acs.macromol.5b00893

There was a typographical error in eq 3a: The new corrected equation is

\[ P_{rod}(q, L) = \frac{2S_i(qL)}{qL} - \left[ \frac{\sin(qL/2)}{qL/2} \right]^2 \] (3a)

Similarly, in the Supporting Information there was a typographical error in eq C.7. The new corrected equation is

\[ P_{seg}(q) = \left[ \frac{2S_i(qd)}{qd} - \left( \frac{\sin(qd/2)}{(qd/2)} \right)^2 \right] \left[ \frac{2J_1(qd/2)}{(qd/2)} \right]^2 \] (C.7)

These are mere typographical errors and have no consequences on the results reported in this article and in the Supporting Information.

We thank F. Burla (AMOLF, Amsterdam, The Netherlands) for having brought these errors to our attention.
