The original article contains two typographical errors on page 2.  
(a) The definition of the average transmission function of the object \( T \) appearing below Eq. (8) contains an extra \( T(\mathbf{x}) \) term in the denominator. The correct definition is  
\[
T = \frac{\int_{A_{\text{beam}}} \langle I(\mathbf{x}) \rangle T(\mathbf{x}) d^2 \mathbf{x}}{\int_{A_{\text{beam}}} \langle I(\mathbf{x}) \rangle d^2 \mathbf{x}}.
\]

(b) In the second line of Eq. (12), the term \( \langle S_2 I_2(\mathbf{x}_2) \rangle \) has been erroneously typed as \( \langle S_1 I_2(\mathbf{x}_2) \rangle \). The correct Eq. (12) reads  
\[
\langle O_-(\mathbf{x}_2) \rangle = \langle \delta S_+ \delta I_2(\mathbf{x}_2) \rangle  
= \frac{\langle S_1 \rangle}{\langle S_2 \rangle} \langle S_1 I_2(\mathbf{x}_2) \rangle  
- \frac{\langle S_1 \rangle}{\langle S_2 \rangle} \langle S_2 I_2(\mathbf{x}_2) \rangle.  
\]

Both typographical errors have no consequences on the rest of the Letter and on the results.  
We thank L. Basano for bringing the two errors to our attention.
